INSANITARY HOMES BREEDING PLACES OF DISEASE-LADEN RATS

Filthy Cellar Rooms of the Tenement District Responsible for Unwholesome Conditions.

Pilth and insanitary conditions in Philadelphia's "cellar rooms," it is the belief of sanitary experts, is primarily responsible for the large number of rats Infesting certain localities of the tenement

Recent inevstigation by prominent merchants, who formed a permanent committee to co-operate with the Department of Realth to drive out the rodents, showed that \$650,000 worth of merchandise is destroyed yearly by rats in this city. Dr. L. E. Cofer, Assistant Surgeon General, at Washington, believes that fifth is one of the chief causes of the existence of rats in tenement dwellings.

The poor of the different downtown wards whose homes are in dark, small and windowless basement rooms are complaining these days of rats. Many of the tenement dwellers have installed rat

Since rats began to infest certain tenements the rat station at the foot of Race street has been kept busy receiving dead and living rats from residents of the congested quarters. The city pays two cents for every dead rat delivered to the station and five cents for

every live one. Rats, in the opinion of leading physicians of this city, are the carriers of the bubonic plague, which is known to the medical world as "black death." Several weeks ago a movement to eliminate rats was launched by prominent men. Thomas Martindale presided at the meeting, and at the suggestion of Director George W. Norris, of the Department of Wharves, Docks and Ferries, it was decided that the organization should become a permanent one.

Of 1000 rats recently brought to the ral section, a careful examination by medical authorities showed that about nine were found to be infected with leprosy. The rats were caught in traps which were set in lofts and warehouses,

sas well as in the tenement district.

Several guinea pigs were incculated with parts of the infected rats to ascertain whether it was possible for a human being to catch leprony from the peats. Research activity of infected rats, which were captured in New York several years ago, disclosed that it was possible for ago, disclosed that it was possible for persons to become infected with leprosy from rate whose system is stricken with that maindy.

that maindy.

Indignation against Select Councilman Charles Seger, of the 7th Ward and chairman of the subcommittee on finance of Councils, who has declared himself as being opposed to the new housing laws, is growing. Many insanitary "cellar rooms" are located in the heart of Seger's rooms" are located in the heart of Seger's ward. It is also in this ward that the headquarters of the International Tenement Owners' Association is located. This association has gone on record as being opposed to the new Division of Housing and Sanitation which was created by the last Legislature. The act

was signed by Governor Tener.

Every effort to get Council's finance committee, of which John P. Conneily is chairman, to grant appropriations for the new department has falled. Conneily, who is anxious to become the candidate for City Solicitor on the Result. didate for City Solicitor on the Republi-can Organization ticket, is another Coun-cilman who doesn't favor the new hous-
